Session 12

Real-world data collection

Issues to Look Out For

- How have the data been collected?
  - Representative? Biases?
- When have the data been collected?
  - Still relevant? Seasonality?
- What quality issues could there be?
  - Outliers?
  - Missing values?
- …

Missing Values, Outliers etc.

- Why do we see these issues?
  - Data collection problems?
  - Artefacts?
  - Something else?
